CREATING AN ACCOUNT

Step 3 — Follow These Steps

A

Enter the player's birth date

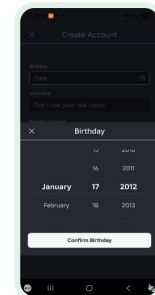

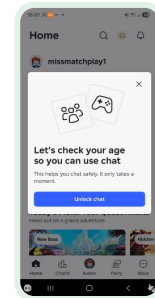

Start by entering the birth date of the player.

B

Age verification

Roblox requires photo-based age verification for all users. Unlock Chat to verify age.

Why this matters: this step confirms age to ensure appropriate content access, keeping younger users separate from adults. If facial estimation places a user in the 5–8 or 9–12 range, certain personal data (like email) may be removed, and chat is restricted.

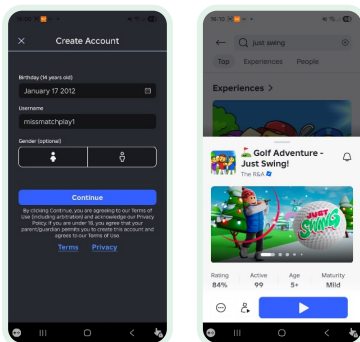

C

Username, gender & chat settings

- Enter a **username** — 3 to 20 characters, letters and numbers only. Our advice: create a new, unused username and avoid using a real name.
- Enter **gender**.
- Choose to **lock or unlock** the chat function.

Note: the in-game Chat Box on Golf Adventure — Just Swing! is disabled. However, since players can also access other games on Roblox, we recommend parents keep the Chat function disabled account-wide. See **Use Parental Controls** on the next page.
